PUBLIC UTILITIES COMMISSION
505 Van Ness Avenue
San Francisco CA 94102-3298

To: Energy Company Filing Advice Letter

From: Energy Division PAL Coordinator

Subject: Your Advice Letter Filing

The Energy Division of the California Public Utilities Commission has processed your recent Advice Letter (AL) filing and is returning an AL status certificate for your records.

The AL status certificate indicates:

Advice Letter Number
Name of Filer
CPUC Corporate ID number of Filer
Subject of Filing
Date Filed
Disposition of Filing (Accepted, Rejected, Withdrawn, etc.)
Effective Date of Filing
Other Miscellaneous Information (e.g., Resolution, if applicable, etc.)

The Energy Division has made no changes to your copy of the Advice Letter Filing; please review your Advice Letter Filing with the information contained in the AL status certificate, and update your Advice Letter and tariff records accordingly.

All inquiries to the California Public Utilities Commission on the status of your Advice Letter Filing will be answered by Energy Division staff based on the information contained in the Energy Division's PAL database from which the AL status certificate is generated. If you have any questions on this matter please contact the:

Energy Division's Tariff Unit by e-mail to
edtariffunit@cpuc.ca.gov

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

ENERGY DIVISION

RESOLUTION E-5475
September 17, 2026

RESOLUTION

Resolution E-5475. Ava Community Energy Clarification on D.21-06-035 Baseline Resource List and Baseline Waiver Requests.

PROPOSED OUTCOME:

- This Resolution confirms that the 200 MW solar and 184 MW/736 MWh storage Sonrisa project contracted by Ava Community Energy is a distinct project from the D.21-06-035 baseline resource of the same name, and thus incremental to the D.21-06-035 baseline.
- This Resolution expands the eligibility requirements for submitting a baseline waiver request as outlined in D.23-02-040 to include situations where a contracted project in the baseline failed to be developed so that the contracting load-serving entities can submit a baseline waiver request to have the project removed from the baseline, and clarifies the process for requesting a baseline waiver.

SAFETY CONSIDERATIONS:

- The owner(s) and seller(s) of the project are responsible for the safe construction and operation of their facilities in compliance with all applicable laws, including safety regulations.

ESTIMATED COST:

- There are no costs associated with this resolution.

By Advice Letter 70-E, Filed on June 1, 2026.

SUMMARY

This Resolution confirms that the Sonrisa project, a 200 MW solar and 184 MW/736 MWh storage facility, contracted by Ava Community Energy ("Ava", formerly East Bay Community Energy ("EBCE")) is a new resource and thus incremental to the baseline list of generators defined in D.21-06-035, following Commission review of the information presented by Ava.

Additionally, this Resolution expands the eligibility requirements for the submission of baseline waiver requests for projects that are included in the baseline but have not and are unlikely to ever come to fruition, and clarifies that Load-Serving Entities (LSEs) may request a Tier 2 waiver by submitting a Tier 2 Advice Letter to the Commission.

BACKGROUND

On February 23, 2023, the Commission issued Decision ("D.") 23-02-040 to address the mid-term reliability needs of the electricity system within the California Independent System Operator's ("CAISO") operating system by ordering supplemental procurement for 2026 and 2027. In D.23-02-040[1], the Commission addressed the topic of baseline resources, "projects that the Commission assumed would be online when determining the capacity needs required by D.19-11-016 and D.21-06-035." More specifically, the Commission adopts two processes to adjust the baseline resource list: a baseline "swap" and a baseline waiver. A baseline swap allows a Load-Serving Entity ("LSE") to nominate a project on the D.19-11-016 and/or D.21-06-035 baseline generator list ("baseline") to be considered for removal, with an equal amount of procurement obligation (in NQC) to be added to the LSE's 2025 procurement obligation under the provisions of D.21-06-035. A baseline waiver allows new LSEs to contract for and count a baseline resource towards its IRP procurement obligations, "when that LSE had previously not held a contract with the project and the original purchasing LSE has terminated the contract."[2] This request removes the resource from the baseline and counts the resource toward the new LSE's obligations.

On June 1, 2026, Ava filed Advice Letter ("AL") 70-E, requesting confirmation that the 200 MW solar and 184 MW/736 MWh storage Sonrisa Project is incremental to the D.21-06-035 baseline. The Sonrisa Project shares the same name as a resource in the baseline generator list, which was included from Ava's 2020 Integrated Resource Plan (IRP). However, the baseline resource included in Ava's 2020 IRP never came to fruition

[1] D.23-02-040, p. 10.
[2] D.23-02-040, pp.18-19.

and thus did not make any development progress due to an infeasible interconnection configuration.

Ava provided additional information in the Advice Letter to support their request for confirmation that the new project is an entirely different resource. Ava stated that the new Sonrisa project differs from the baseline project in size, commercial operation date, design, technology, land footprint, interconnection configuration, and permitting status. Due to these factors, the new Sonrisa project design is substantially different from the baseline resource of the same name.

NOTICE

Notice of AL 70-E was made by publication in the Commission's Daily Calendar, and a copy of the Advice Letter was mailed and distributed in accordance with Section 4 of General Order 96-B.

PROTESTS

Advice Letter 70-E was not protested.

DISCUSSION

The Commission has reviewed and evaluated the information and details provided in Ava's AL 70-E and finds that the newly contracted Sonrisa project, a 200 MW solar and 184 MW/736 MWh storage facility, is a new resource and thus incremental to the D.21-06-035 baseline.

The Commission is aware that there are several projects in the baseline generator lists of D.19-11-016 and D.21-06-035 that have not yet come online and are unlikely to make further developmental progress, and therefore other LSEs may find themselves in a similar situation. Thus, this resolution expands the eligibility requirements for LSEs to submit a baseline waiver request to include situations where a project simply did not get developed, i.e., the project is not online and no longer actively moving forward. Also, we clarify that an LSE may request a baseline waiver by submitting Tier 2 Advice Letter to the Commission; this was implied but not explicitly stated by D.23-02-040.

COMMENTS

Public Utilities Code ("PUC") Section 311(g)(1) provides that this Resolution must be served on all parties and subject to at least 30 days public review. Any comments are due within 20 days of the date of its mailing and publication on the Commission's website and in accordance with any instructions accompanying the notice. Section 311(g)(2) provides that this 30-day review period and 20-day comment period may be reduced or waived upon the stipulation of all parties in the proceeding.

The 30-day review and 20-day comment period for the draft of this resolution was neither waived nor reduced. Accordingly, this draft resolution was mailed to parties for comments on August 12, 2026. No party submitted comments on the draft resolution.

FINDINGS AND CONCLUSIONS

1. Commission Decision 23-02-040 directed load-serving entities ("LSEs") to file an Advice Letter to submit a baseline waiver request if a new LSE wants to contract for and count a baseline resource towards its IRP procurement obligation, when that LSE had previously not held a contract with the project and the original purchasing LSE has terminated the contract.

2. Ava Community Energy ("Ava") has requested confirmation that the newly contracted Sonrisa project, a 200 MW solar and 184 MW/736 MWh storage facility, is incremental to the D.21-06-035 baseline.

3. The aforementioned project shares the same name as a resource in the D.21-06-035 baseline generator list but otherwise is a new resource, due to the new project's design which differs from the baseline project's design in size, commercial operation date, technology, land footprint, interconnection configuration, and permitting status.

4. The current requirements that qualify a LSE to submit a baseline waiver request should be expanded to include scenarios in which a contracted project failed to come online and is abandoned.

THEREFORE IT IS ORDERED THAT:

1. The request of Ava Community Energy ("Ava") to confirm that the newly contracted Sonrisa project, a 200 MW solar and 184 MW/736 MWh storage facility, is

incremental to the D.21-06-035 baseline, as requested in Advice Letter 70-E, is approved.

2. The eligibility requirements outlined in D.23-02-040 for load-serving entities to submit a baseline waiver request are expanded to include the scenario in which a baseline project failed to be developed to deliver power to the grid and is no longer under contract.

3. A load-serving entity may request a baseline waiver request by submitting a Tier 2 Advice Letter to the Commission.

This Resolution is effective today.

The foregoing resolution was duly introduced, passed and adopted at a conference of the Public Utilities Commission of the State of California held on September 17, 2026; the following Commissioners voting favorably thereon:

☒ **INITIAL SUSPENSION (up to 120 DAYS from the expiration of the initial review period)**

This is to notify that the above-indicated AL is suspended for up to 120 days **beginning** **July 1, 2026**(30 days after the Advice Letter filing) for the following reason(s) below. If the AL requires a Commission resolution and the Commission's deliberation on the resolution prepared by Energy Division extends beyond the expiration of the initial suspension period, the advice letter will be automatically suspended for up to 180 days beyond the initial suspension period.

☐A Commission Resolution is Required to Dispose of the Advice Letter

☐ Advice Letter Requests a Commission Order

☒ Advice Letter Requires Staff Review

The expected duration of initial suspension period is 120 days

☐ **FURTHER SUSPENSION (up to 180 DAYS beyond initial suspension period)**

The AL may require a Commission resolution and the Commission's deliberation on the resolution prepared by Energy Division has extended beyond the expiration of the initial suspension period. The advice letter is suspended for up to 180 days beyond the initial suspension period.

If you have any questions regarding this matter, please contact Julie He at Julie.He@cpuc.ca.gov

Re: Ava Community Energy's Request for Clarification on D.21-06-035 Baseline Resource List

Purpose

Ava Community Energy ("Ava") submits this Tier 2 Advice Letter pursuant to Decision ("D.") 23-02-040 issued in Rulemaking ("R.") 20-05-003 requesting clarification that its newly contracted Sonrisa solar and storage project ("Sonrisa-B") may be treated as incremental to the D.21-06-035 baseline resource list ("baseline").

A project identified as Sonrisa is currently reflected in the California Public Utilities Commission's ("Commission's") baseline generator list associated with D.21-06-035. That baseline entry corresponds to an earlier project configuration that Ava refers to in this submittal as "Sonrisa-A." Sonrisa-A was never constructed or permitted. Because the Sonrisa-A project never advanced and is no longer being developed, Ava seeks confirmation that the baseline entry associated with that project should not constrain Ava's ability to count the newly contracted Sonrisa-B project toward its procurement obligations.

D. 23-02-020 established procedures allowing load-serving entities to count certain baseline resources toward procurement obligations subject to various requirements.[1] This request does not seek to count an existing baseline resource toward Ava's procurement obligation. Rather, Ava seeks clarification that the unconstructed Sonrisa-A project should not limit the treatment of the materially different Sonrisa-B facility as incremental procurement.

[1] *See* D.23-02-020 Ordering Paragraph 1.

Background

A project named Sonrisa-A[2] is included in the D.21-06-035 baseline resource list[3] as a resource that was expected to come online by December 31, 2022. Sonrisa-A is listed in the baseline as a 100 MW solar and 30 MW/120 MWh storage resource. [redacted] Following Ava's contracting for this project, the project's interconnection configuration was found to be infeasible as designed; Sonrisa-A could not be built due to an inability to implement AC storage as required by the PPA. [redacted] Sonrisa-B is expected to achieve commercial operation on June 1, 2027.

Although Sonrisa-B uses the same project name as Sonrisa-A, it is materially different from the project reflected in the baseline: Sonrisa-A was never built, developed, or permitted for construction; [redacted] Sonrisa-B also differs materially from Sonrisa-A in size, commercial operation date, design, technology, land footprint, interconnection configuration, and permitting status. Sonrisa-A was sized at 200 MW of solar, co-located with 40 MW of storage (of which 100 MW of solar, co-located with 30 MW of storage was contracted with Ava), while Sonrisa-B is a 200 MW solar and 184 MW/736 MWh facility [redacted] Driven by sizing and differing technology selection, Sonrisa-B's project design and layout are substantially different. Sonrisa-B incorporates new land parcels that were necessary to accommodate the new resource's design; that new land is integral to the site and will host PV panels. Unlike Sonrisa-A, which did not complete California Environmental Quality Act review, did not have a certified Environmental Impact Report, and did not secure its required Fresno County Conditional Use Permit ("CUP") before being canceled, Sonrisa-B has advanced through permitting, secured

[2] For clarity, Ava refers to the baseline resource as "Sonrisa-A" and the newly contracted resource as "Sonrisa-B."

[3] Information related to the Baseline List of Resources associated with Commission Decision Requiring Procurement to address Mid-Term Reliability (D.21-06-035).

its Conditional Use Permit, and is now under construction for delivery to Ava by mid-2027.

[redacted]

Based on the above, the Sonrisa-B resource in its entirety is a materially different project and should be treated as incremental to the D.21-06-035 baseline. Accordingly, Ava requests confirmation that the Sonrisa-B facility may be treated as incremental procurement for purposes of compliance with D.21-06-035. Without waiving its position that the full Sonrisa-B resource is incremental to the D.21-06-035 baseline, Ava alternatively requests confirmation that, at a minimum, the Sonrisa-B resource be treated as incremental for the portion of its generation and storage capacity that exceeds the Sonrisa-A resource (i.e., 100MW of solar and 154MW/616MWh of storage).

Conclusion

For the reasons described above, Ava respectfully requests approval of this advice letter and confirmation that Sonrisa-B may be treated as incremental to the D.21-06-035 baseline. Ava further requests that the Commission confirm that the baseline capacity associated with the unconstructed Sonrisa-A resource does not preclude Ava from counting Sonrisa-B's 200 MW solar and 184 MW / 736 MWh storage capacity toward Ava's procurement obligations.

Tier Designation

This AL is submitted as a Tier 2 filing consistent with the advice letter procedures adopted in D.23-02-040 for requests related to baseline resource treatment under the mid-term reliability procurement framework.

Effective Date

Pursuant to General Order 96-B, Ava requests that this Tier 2 AL become effective on July 1, 2026, which is 30 calendar days after the date of this filing.

Notice

A copy of this AL is being served on the official Commission service list for Rulemakings R.20-05-003 and R.25-06-019.

Protests

Anyone wishing to protest this filing may do so by filing a protest with CPUC Energy Division and Ava by June 22, 2026, which is 20 calendar days after the date of this submittal. Protests can be mailed to the following address:

CPUC Energy Division
Attention: Tariff Unit
505 Van Ness Avenue
San Francisco, CA 94102
Fax: (415) 703-2200
Email: EDTariffUnit@cpuc.ca.gov

Copies of protests should also be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest should also be sent via U.S. mail (and by facsimile and electronically, if possible) to Ava at the addresses shown below on the same date it is mailed or delivered to the Commission:

DECLARATION OF MARIE FONTENOT IN SUPPORT OF CONFIDENTIAL TREATMENT OF INFORMATION IN AVA COMMUNITY ENERGY'S ADVICE LETTER NO. 70-E SUBMITTAL

I, Marie Fontenot, declare:

1. I am the Senior Vice President of Power Resources for Ava Community Energy ("Ava") and am authorized to make this declaration in support of Ava's request for confidential treatment of certain information submitted in connection with Advice Letter No. 70-E ("Advice Letter").

2. In this capacity, I have knowledge of the information contained in Ava's Advice Letter. Ava's Advice Letter is comprised of certain information describing commercial contracting arrangements and project development details associated with Sonrisa projects and related Power Purchase Agreements.

3. I make this declaration in support of confidential treatment of information contained in Ava's Advice Letter pursuant to California Public Utilities Code Section 583 and Decision 06-06-066, as modified by Decision 07-05-032, Decision 08-04-023, Decision 20-07-005, and Decision 21.11-029 (collectively "Confidentiality Decisions").

4. In the Confidentiality Decisions, the California Public Utilities Commission ("Commission") adopted rules governing the submission of confidential energy procurement and market sensitive information to the Commission by Community Choice Aggregators ("CCAs"). In the modified ESP Matrix, the Commission identified categories of information and the confidentiality protections to be applied to those categories. To the extent information submitted to the Commission by a CCA matches a category of information contained in the ESP Matrix, the information is entitled to the protection provided for that category of information by the ESP Matrix.

Public Version

5. The information contained in Advice Letter is market sensitive energy procurement information that is protected under Public Utilities Code Section 583 and Item(s) IV (A) – (C) of the ESP Matrix of the Confidentiality Decisions.

6. Ava will provides the information in the Advice Letter to the extent required by the Public Utilities Code Section 583 and the Confidentiality Decisions. Limiting access to the information contained in Ava's Advice Letter in this way is consistent with the Public Utilities Code Section 583 and the Confidentiality Decisions.

7. The redacted information contained in the Advice Letter is not public.

8. Public disclosure of this information could harm Ava's procurement interests and negotiating position in future energy procurement activities, including future solicitations and bilateral negotiations. Disclosure could also reveal commercially sensitive contracting practices and project development arrangements of Ava and its counterparties, potentially disadvantaging Ava and the develop in competitive wholesale energy markets.

9. Accordingly, Ava requests confidential treatment for the information identified and redacted in its Advice Letter submittal.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Executed this 1st day of June, 2026, in Oakland, California.
