

Product Content Label¹

Ava Community Energy’s Solar Discount matches 100% of your electricity usage. This table provides the renewable resource mix in Solar Discount in 2023, as well as the projected resource mix in 2024.

Green-e® Energy Certified New² Renewables in Solar Discount

| | 2023 Historical | | 2024 Prospective | |
|-------|-----------------|---------------------|------------------|---------------------|
| | % | Generation Location | % | Generation Location |
| Solar | 100% | California | 100% | California |
| Total | 100% | California | 100% | California |

1. Prospective figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historical Product Content Label the actual resource mix of the electricity you purchased. Historical figures reflect the power delivered to Solar Discount’s customers in 2023.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years.

For comparison, the current average mix of resources supplying California includes: Coal (2.1%), Nuclear (9.2%), Natural Gas (36.4%), Large Hydroelectric (9.2%), Eligible Renewable (35.8%), and Other (7.2%). This resource mix was prepared in accordance with California Power Source Disclosure Program for 2022.

The average home in the Ava Community Energy service area on TOU-C rates uses 365 kWh per month. Source: Ava/PG&E Joint Rate Comparison July 2023.
